FIPI Energy Week
21st-27th August, 2023

Federation of Indian Petroleum Industry
Dibrugarh University Student Chapter
Dibrugarh University
Dibrugarh, Assam-786004, India

Message from Hon'ble Vice-Chancellor for FIPI Energy Week

I am quite pleased to note that Federation of Indian Petroleum Industry, Dibrugarh University Student Chapter is all set to organize 'FIPI Energy Week' from 21st to 27th August, 2023 in the University premise which is a coordinated effort of Department of Petroleum Technology, Petroleum Engineering and Applied Geology.

It is a commendable initiative of the student chapter to create an intellectually challenging and rewarding atmosphere for the student community in terms of various technical and social activities across the week. In the era of digitalization and innovation, it is an integral part for the student fraternity to get acquainted with the day to day developments in their respective domains through such industry academia conclaves. Since past several decades, industries are coming forward soliciting support from the academia and special focus has been laid by the industries to strengthen cooperation with academia for improving productivity, unless which interface between the two entities can potentially give rise to disparity between demand and supply which in turn can even cause disruption in the market. Correspondingly, a good number of institutions of learning seem to have been coming forward in tandem with the industries.

The theme of the energy week is set forward as 'Resilience and Adaptability in Petroleum Industry' which will definitely meet the goals of sustainability through adaptation with outstanding ideas and innovations. The event will be a great platform for faculty members, researchers and students to exchange ideas with industry personnel and academic experts leading to the overall growth of the nation. I am apprised by the fact that the chapter will also organize Independence Day events in the context of G20 and Azadi Ka Amrit Mahotsav initiative of Government of India in collaboration with industries.

I hope the cluster of events to be organized throughout the week will build up professionalism and nurture personality amongst the students to compete at par with all around development.

We are grateful to our sponsors for this event for their valuable support and guidance in organizing the event at Dibrugarh University. I also extend my sincere gratitude to the faculty advisor Dr. Borkha Mech and her team in bringing forth the event which will immensely benefit the student fraternity.

Dated Dibrugarh, the 18th May, 2023.

(Jiten Hazarika)

Message from Head of the Department for FIPI Energy Week

Federation of Indian Petroleum Industry (FIPI) is an apex Society of entities in the hydrocarbon sector and acts as an industry interface with Government and regulatory authorities. It helps in resolution of issues and evolution of policies and regulations. It represents the industry on Government bodies, committees and task forces and has been submitting recommendations to the Government on behalf of the industry on various issues. It aims to be the most effective and influential voice of the oil & gas industry to facilitate its development as a globally competitive industry in India that enjoys the respect and trust of the society.

I on behalf of the department welcome you all to the FIPI Energy Week to be conducted in hybrid mode from 21st to 27th Aug'23 in the premises of Dibrugarh University, organised by DU students' Chapter in the Department of Petroleum Technology, Dibrugarh University. FIPI, DU students' Chapter will present FIPI Energy Week, consisting of a national level conference, technical competitions such as paper, poster, case study and many more. It will be attended by eminent industrialists and academic experts from various parts of the country. The main highlight will be the celebration of the Independence Day as part of Azadi Ka Amrit Mahostav in accordance with G20 goals.

FIPI DU students' Chapter is the voice of DU students enabling hydrocarbon's sustained growth and global competitiveness with the vision of :

- A progressive energy advisory body stimulating growth of the Indian hydrocarbon sector with global linkages.
- A healthy and strong interface with Government and regulatory bodies.
- Create value for stakeholders in all actions.
- Collaborative research and technology adoption in the domain of energy and environment.
- A vibrant, adaptive and trustworthy team of professionals with domain expertise.
- A financially self-sustaining, not-for-profit organization.

Subrata

Dated Dibrugarh, the 19th May, 2023.

Dr. (Mrs.) Subrata Borgohain Gogoi,
Professor & Head
Department of Petroleum Technology
Dibrugarh University

Message from Faculty Advisor for FIPI Energy Week.

I am honored and delighted to serve as the Faculty Advisor of Federation of Indian Petroleum Industry (FIPI) Dibrugarh University Student Chapter for the academic year 2023-2024. FIPI is an apex society of entities in the hydrocarbon sector and acts as an industry interface with government and regulatory authorities. It helps in resolution of issues and evolution of policies and regulations that affect the industry. FIPI also represents the industry on various government bodies, committees and task forces and submits recommendations to the government on behalf of the industry on various issues.

Our primary objective is to provide a platform for all the academicians, students, technologists and management experts of the university/college for regular exchange of ideas to explore areas of growth in the field of petroleum technology and other related areas such as exploration, drilling, production and processing, refining etc. We aim to foster a culture of innovation, excellence and collaboration among our members and stakeholders.

The theme for FIPI Week to be held tentatively from August 21, 2023 to August 27, 2023 is “Resilience and Adaptability in Petroleum Industry”. The petroleum industry has always faced various challenges, including price volatility, supply chain disruptions, geopolitical instability, and environmental concerns. Thus, resilience and adaptability are crucial for the industry to remain competitive and sustainable in the long term. The theme shall therefore, focus on the ability of the industry to withstand and recover from change, disruption, and crisis by exploring the latest trends and drivers of change in the industry, strategies and best practices that the industry can adopt to become more resilient and adaptable, role of collaboration and partnerships in building resilience and adaptability in the industry and the importance of addressing the social and environmental impacts of the petroleum industry.

I believe, the very aim of strengthening the industry-academia relationship, making the students industry ready, increasing the level of competence amongst them and bringing the youth of varied discipline together under one roof will be attained by this 7 days event.

I would also like to express my heartfelt gratitude to our sponsors for their generous and continuous support, and we look forward to working with them in the future.

Dated Dibrugarh, the 19th May, 2023.

Dr. Borkha Mech

Conquering Newer Horizons

With a legacy traversing three centuries from the successful commercial discovery of crude oil at Digboi in 1889 and Independent India's first oil field in Naharkatiya - all in the north eastern state of Assam - Oil India Limited was born on 18th February, 1959 to increase the pace of exploration in Northeast India.

Dogged determination of some of the finest oil & gas explorers and a committed workforce has enabled OIL to expand its pan India presence and spread its wings overseas with footprints in countries such as Bangladesh, Gabon, Israel, Libya, Mozambique, Nigeria, Russia, USA and Venezuela.

Today, as a Navratna PSU, Oil India Limited is fully committed to achieve the co-created vision of becoming "the fastest growing energy company with Global Presence" with special emphasis on carrying out its duties as a responsible corporate citizen.

Setting the right pace globally

ABOUT FIPI

The Federation of Indian Petroleum Industry (FIPI) is an apex Society of entities in the hydrocarbon sector and acts as an industry interface with Government and regulatory authorities. It supports the Government in resolution of issues and evolution of policies and regulations. It represents the industry on various Government bodies, committees and task forces and has been instrumental in voicing industry concerns with various ministries and regulators.

It aims to be the most effective and influential voice of the oil & gas industry to facilitate its development as a globally competitive industry in India that enjoys the respect and trust of the society. Several Government policy initiatives have their genesis in its reports and publications, some of which are quoted in documents like the Integrated Energy Policy.

ABOUT US

The FIPI Dibrugarh University Student Chapter was formed on 1st July 2017. FIPI DU SC strives to provide an interactive space between the students and the global leaders in the oil industry. Our activities include organizing events that are aimed at providing a first hand experience of the various attributes of the industry (exploration, production, distribution and supply, technical advancements, policies and economy of scale) through holding talks, webinars and workshops etc. We also hold competitions to help individuals demonstrate their abilities to the best while also being exposed to a plethora of opportunities that awaits them in the industry. Our team involves the versatile faculty and the student community of Department of Petroleum Engineering , Department of Petroleum Technology and the Department of Applied Geology here at Dibrugarh University.

INFORMATION BROCHURE | 2023

FIPI DU SC

THEME OF FIPI ENERGY WEEK

Resilience and Adaptability in Petroleum Industry

The theme of Resilience and Adaptability in the petroleum industry would focus on the ability of the industry to withstand and recover from change, disruption, and crisis.

The theme will focus on:

1. Exploring the latest trends and drivers of change in the industry.
2. Exploring the strategies and best practices that the industry can adopt to become more resilient and adaptable.
3. The role of collaboration and partnerships in building resilience and adaptability in the industry.
4. The importance of addressing the social and environmental impacts of the petroleum industry.

FIPI ENERGY WEEK EVENTS

National Conference

A conference of national importance will be organised under FIPI Energy Week to be graced by eminent industrialists and academicians. The conference will be subdivided into various technical sessions based on latest trends in oil and gas sector covering technical, economical aspects in a unified manner. The conference is aimed to exchange ideas among attendees and resource persons strengthening industry academia relationship. The theme of the conference will strive to cater the needs of students to develop and gain in depth knowledge in their areas of interests thereby providing a diversified platform.

Paper Presentation

A technical research-based paper presentation will be conducted digitally on FIPI Energy week this year. The theme will be generally based on the recent advancements, review and research experimentations which will enhance the petroleum exploration and production sector to new level. Participants can showcase their recent project works in front of the jury, following which it will be rated and judged based on their performance. Each paper presentation will be a maximum of 10-12 minutes in length and will be followed by a brief question and answer period of approximately 3 minutes. The scope of a paper presentation is to enhance participant's ability and help get exposure to various academics as well as dignitaries of O&G industries.

FIPI ENERGY WEEK EVENTS

Poster Presentation

A technical based poster presentation will be organised by FIPI Dibrugarh University Student chapter on the FIPI Energy week. The theme will generally be circulating among the new innovations, economics and technology which will uplift the O&G sector in near future. Participants can provide visual representation of their research through text, charts, graphs, and other visual aids and allow viewers to read their work material at their own leisure and to interact with them—perhaps asking questions about their methods and findings. They must prepare their poster according to given templates and guidelines and have to present their poster in front of jury members verbally and answer their queries based on which he/she will be judged.

Quiz Competition

A general quiz competition will be conducted by FIPI Dibrugarh university Student chapter on the FIPI Energy week this year. The quiz will cover various aspects of general knowledge like current affairs, science and technology, politics, sports, economics, etc. As always, the student council left no stone unturned to conduct the competition with utmost discipline and at the same time ensuring fair play in the competition. The quiz will be energizing and at the same time informative and updating for all participants as well as for audience. The jury member will judge based on performance and elimination rounds (providing various rules, time limits and procedures) and at last the winners will be declared. The participation for quiz is open for all students from various department and institution.

FIPI ENERGY WEEK EVENTS

Case Study Challenge

An industry based case study challenge will be organised by the chapter wherein the attendees will be given to solve field based cases or complications experienced by different oil and gas organizations in the past decades. The main focus of the event will be to arouse the sense of innovation and develop problem solving skills of the students so that they can compete at international and national level. The solutions proposed by the student fraternity and researchers will definitely encourage constructive discussions with the industry personnel to develop and revise industry standards.

Alumni Talk

The chapter would like to propose an alumni talk for the host institution. Alumni engagement is essential to our institution's success, the chapter believes that this talk will provide our current students with valuable insights and perspectives on life after graduation. The purpose of this talk is to provide current students with an opportunity to learn from our alumni's experiences and achievements since leaving our institution. The talk will definitely inspire our current students, give them valuable advice, and provide them with a sense of community and connection to our institution. The speaker will share their insights and experiences on how their education at our institution has contributed to their success and how they have applied their knowledge in their career or personal life.

FIPI ENERGY WEEK EVENTS

Technical Workshop

A technical workshop will be organised under FIPI Energy Week inculcating advancements in petroleum sector. The purpose of this workshop is to provide students with hands-on experience and practical knowledge of the latest technologies used in the oil and gas industry. The workshop will be designed to give students an in-depth understanding of the latest advancements in the industry and their application. The workshop will be led by experienced professionals in the field, who will share their insights and expertise in specified domains. It will be an excellent opportunity for our undergraduate students to gain practical knowledge and experience in the latest technologies used in the petroleum industry.

Independence Day Celebration

The chapter aims at meeting the goals set up by Government of India and Federation of Indian Petroleum Industry in regards to G20 presidency and Azadi Ka Amrit Mahotsav during the Independence Day celebrations in this session. As a part of Dibrugarh University (host institution for organising G20 activities), the chapter will conduct day long activity to develop peace and harmony taking pride of India's 75th year of independence in collaboration with sponsorers and collaborators. The activities will also thrive to serve for the purpose of creating environmental awareness among people.

SPONSORSHIP SCHEMES

PACKAGE 1

PLATINUM SPONSORS (RS. 2,00,000 AND ABOVE)

- Promotion of the company as title and exclusive sponsor of the event with the presence of their logo unit everywhere in the proceedings of FIPI Energy Week.
- Reservation of exclusive premium slots of exhibition in the inaugural ceremony of FIPI Energy Week.
- Presence of logo in the all the posters and advertisements in the social media handles and official website of FIPI DU SC.
- Logo presence in T-shirts.
- Hoardings consisting the logo of the platinum sponsors to be hanged in the city centres of the state.
- Presence of the logo and motto of the company in the official brochures and promotional videos.
- Presence of logo unit in all corresponding advertisements between FIPI DU SC and all other participating educational institutions.
- Display of the company logo during the conference and other technical events.
- Reservation for content/flyer slot in the FIPI Energy Week 2023 brochure.

SPONSORSHIP SCHEMES

PACKAGE 2

GOLDEN SPONSORS (RS. 1,50,000-RS. 2,00,000)

- Promotion of the company as title and exclusive sponsor of the event with the presence of their logo unit everywhere in the proceedings of FIPI Energy Week.
- Reservation of exclusive premium slots of exhibition in the inaugural ceremony of FIPI Energy Week.
- Logo presence in T-shirts.
- Hoardings consisting the logo of the platinum sponsors to be hanged in the city centres of the state.
- Presence of the logo and motto of the company in the official brochures and promotional videos.
- Display of the company logo during the conference and other technical events.
- Reservation for content/flyer slot in the FIPI Energy Week 2023 brochure.

SPONSORSHIP SCHEMES

PACKAGE 3

SILVER SPONSORS { RS. 1,10,000-1,50,000}

- Promotion of the company as title and exclusive sponsor of the event with the presence of their logo unit everywhere in the proceedings of FIPI Energy Week.
- Hoardings consisting the logo of the platinum sponsors to be hanged in the city centres of the state.
- Presence of the logo and motto of the company in the official brochures and promotional videos.
- Display of the company logo during the conference and other technical events.
- Reservation for content/flyer slot in the FIPI Energy Week 2023 brochure.

SPONSORSHIP SCHEMES

PACKAGE 4

BRONZE SPONSORS { RS. 1,00,000}

- Promotion of the company as title and exclusive sponsor of the event with the presence of their logo unit everywhere in the proceedings of FIPI Energy Week.
- Hoardings consisting the logo of the platinum sponsors to be hanged in the city centres of the state.
- Presence of the logo and motto of the company in the official brochures and promotional videos.
- Reservation for content/flyer slot in the FIPI Energy Week 2023 brochure.
